

Corn Pop Candy Stacy Croninger

This recipe was given to me years ago. At that time, you could only find corn pops around Christmas. Now these puffy corn pieces are available year-round.

INGREDIENTS

1 large bag corn pops (found on the chip aisle)
3 cubes butter
1½ c. sugar
5 tbsp. white corn syrup
5 tbsp. water

DIRECTIONS Pour corn pops in a large bowl; set aside. In saucepan, mix remaining ingredients. Bring to a boil; boil for 4 minutes. Pour over corn pops; stir until completely coated. Cool and serve. These can be stored in an airtight container for several days.
